---

## Summary

A highly motivated and detail-oriented developer. I have experience in creating responsive, user-friendly web applications using modern technologies such as React, TypeScript, and Node.js. I am passionate about coding, creating impactful user experiences, and solving challenging problems with clean, efficient code.

## Education

### Uni. Of Central FL

Bachelor's Degree  
Computer Engineering  
May 2026

## Technical Skills

### Frontend Development:

React.js, TypeScript, Vite,  
HTML5, CSS

### Backend Development:

Node.js, Express.js, RESTful  
APIs

### Database Management:

PostgreSQL, Sequelize ORM

### Version Control:

Git, GitHub

## Experience

### Frontend Developer

- Designed and developed responsive single-page applications using React, TypeScript, and Vite.
- Built reusable components and modular code structures to streamline development.
- Integrated client-side and server-side APIs to fetch and display dynamic data.

### Backend Developer

- Created RESTful APIs using Node.js and Express.js to support frontend applications.
- Implemented PostgreSQL databases with Sequelize for efficient data management.
- Collaborated with the frontend team to ensure seamless integration and API consumption.
